Section I. Planning Summary

A. How does the plan support Balanced and Restorative Justice?

Our plan provides opportunities for competency development and community protection through the trainings we will complete on the deinstitutionalization of status offenders, racial and ethnic disparities and family engagement. Our plan supports accountability and restorative justice by increasing more diverse representation of membership and expanding to include youth.

B. How did the Council identify priorities?

Our Council reviewed the 2018-2020 plan and identified objectives that we want to continue. We focused on setting objectives around the core protections of the JJDP Act that we believe we would have the most influence on within our district. We also recognized that we can expand our membership to include more diverse partners and most importantly, youth.

C. How did the Council solicit and receive Public Input?

Our Council meeting to approve the plan was open to the public. Council members also represent a variety of government and private agencies (e.g. law enforcement, juvenile and adult misdemeanor probation, state agencies, community members and non-profit organizations).

D. How will the Council report to IDJC, the Juvenile Justice Commission and other stakeholders?

Our Council meets monthly and at each meeting our committees will report on the progress of their objectives and action steps. We will also submit a quarterly progress report to the Juvenile Justice Commission. Our plan will be posted on the Juvenile Justice Commission website.
